

A Text Too Far

by Alison Reid

One text message destroys her future.

Four weeks before her wedding, Imogen Mitchell has everything she's ever wanted—a successful bakery, a loving fiancé, and a future with Austin Sterling, the man she's loved for years.

Then a series of shocking text messages appears.

Overnight, Austin's reputation is destroyed, their wedding is cancelled, and the life they've spent years building begins to unravel. Heartbroken and convinced she's been betrayed, Imogen walks away from the man she thought she knew.

But the truth is far more dangerous than the lie.

As whispers spread through their small town and long-buried resentments come to light, Imogen discovers that someone close to her has been pulling the strings all along. Someone willing to destroy lives, friendships, and even family to get what they want.

With trust shattered and secrets surfacing, Imogen and Austin must uncover the truth before the damage becomes permanent. Because the greatest betrayal isn't always committed by the person you're taught to blame.

And sometimes the people standing closest to you are the ones most capable of breaking your heart.
