

New Year's Eve Kiss

by Alison Reid

One night. One kiss. A love they can't escape.

Emily Sinclair has spent her entire life wondering if anyone could ever love her for herself—not her wealth, not her family name, just her.

So, when she catches her boyfriend cheating on her in a luxury Sydney penthouse on New Year's Eve, she decides she's done playing the shy, careful heiress.

Then she meets him.

Marcus Winters is devastatingly handsome, dangerously confident, and the most intoxicating man Emily has ever encountered. One dance turns into a midnight kiss neither of them can forget—a kiss so explosive it leaves them both craving more.

But by morning, Emily is gone.

Months later, Marcus discovers the woman who has haunted his dreams is now engaged to his best friend.

James Fraser wants to marry Emily.

Marcus wants to forget her.

And Emily has no idea the two men are hiding secrets that could destroy everything.

Trapped together on a secluded tropical island during an exclusive luxury retreat, the attraction between Emily and Marcus reignites with devastating force. Every glance burns. Every touch tempts. Every stolen moment pushes loyalty, friendship, and desire toward betrayal.

Because some kisses are impossible to forget... and some loves are impossible to resist.
