

Quiet Danger

by Alison Reid

She thought the danger ended the night he saved her.

She was wrong.

Annie Spencer has rebuilt her life around control—her career, her routines, her carefully guarded heart. After a terrifying encounter with an obsessive man, she's sworn off relationships and the risk that comes with them.

But danger doesn't always announce itself.

When a masked attacker corners her in a dark parking lot, it's William Banks—a powerful, guarded lawyer with a past of his own—who steps in and saves her.

From the moment he pulls her into his arms, something shifts.

He's everything she shouldn't want.

Protective. Intense. Impossible to ignore.

And he's not letting her face the darkness alone.

As their connection deepens, Annie begins to feel something she hasn't in a long time—safe. Desired. Seen. But the threats don't stop. Strange calls. Escalating intimidation. A past that refuses to stay buried.

Someone is watching her.

Someone who won't stop.

And this time, William might not be there to catch her.

Because the closer they get to the truth... the more dangerous it becomes.

And walking away from each other might be the only way to survive.

Tropes:

 Romantic Suspense

 Protective Hero

 Hurt/Comfort

 He Falls First

 Lawyer Hero

 Stalker Romance

 Forced Proximity
