

# The Billionaire's Regret

by Alison Reid

*He walked away from her once...*

*Now he'll do anything to get her back.*

Five years ago, Michael Anderson made the biggest mistake of his life—he left the woman he loved without a word, convinced she had betrayed him.

He never gave her the chance to explain.

Now, he's a powerful billionaire with the world at his feet... and a past that refuses to stay buried.

Because Melissa Shaw is back. Stronger. Untouchable. More breathtaking than ever.

She's built a new life, a thriving career, and walls high enough to keep any man out—especially the one who shattered her heart.

But when fate throws them together again, the truth begins to unravel.

The betrayal he thought he witnessed wasn't what it seemed.

The woman he walked away from was never unfaithful... only broken.

And the more Michael learns, the more one thing becomes clear—

He didn't just lose her. He destroyed her.

Now, he'll stop at nothing to make her his again.  
But Melissa isn't the same girl he left behind.  
And this time... Loving her might be the hardest battle he's ever fought.
