

The Memory of Betrayal

by Alison Reid

Zoey Holloway thought she had the perfect marriage.

She adored her powerful billionaire husband, Leon, and after years together, they were finally trying for the baby they both desperately wanted. Their life in Manhattan looked flawless from the outside—passionate, successful, untouchable. Until the night she discovers Leon with another woman.

But the betrayal cuts deeper than the affair itself. It's the horrifying realisation that the lies were routine. Practiced. Intimate.

Shattered and fleeing the truth, Zoey's world ends in twisted metal and screaming tyres.

When she wakes in the hospital, pieces of her memory are gone.

Leon is suddenly the attentive, devoted husband she always believed in—a man desperate for a second chance. Everyone tells her how much they love each other.

So why does she feel nothing when he touches her?

And why does his business partner, Logan Sterling—the quiet, controlled man Leon warned her never to trust—feel painfully familiar instead?

As fragments of memory begin returning, Zoey finds herself caught between the husband she once loved with everything she had... and the man who has silently loved her for years.

But some betrayals can never be forgotten.

And some loves are worth remembering.
