

Accidental Heirs

A Billionaire Legacy Romance Collection

*In **Accidental Heirs**, three powerful billionaire men discover that legacy isn't something you can design, buy, or control—it's something that finds you when you least expect it. They wanted control. They never planned for love... or the children who would change everything.*

The Billionaire's Accidental Legacy — *He wanted an heir without attachment. She wanted a child born of love.* After losing her husband to cancer, Hannah Sullivan makes the bravest decision of her life—to have his baby. When the fertility clinic calls with life-changing news, Hannah believes her miracle has finally arrived. She's pregnant. But the miracle isn't what she thought. A devastating clinic error reveals the truth: the baby she's carrying isn't her late husband's child at all. The father is Bennett Langford. Cold. Powerful. Untouchable. The billionaire heir who never planned to fall in love—and never planned to meet the woman carrying his child. Now their lives are suddenly, irrevocably connected. Hannah offers him something he never expected: a chance to be part of their child's life. But Bennett doesn't trust kindness. He doesn't believe in love. And he certainly doesn't believe in fate. Yet the more time he spends with the compassionate woman who turned his perfectly controlled life upside down, the more dangerous one truth becomes. Because the baby was an accident. Falling for Hannah Sullivan was never supposed to happen.

The Billionaire's Mistake — *He learned early that love has a price. She learned too late that his heart was guarded by scars she never saw. But some mistakes leave consequences. Consequences that will bind them together forever.* Billionaire CEO Sebastian Hayes has built an empire on control—and distrust. After watching his father destroyed by women who wanted his money, not his heart, he's sworn never to fall for a lie wrapped in beauty. Then his long-time secretary goes on a long needed

break... and her replacement walks in. Matilda Collins is smart, capable, and dangerously tempting. A woman who ignites his desire and dismantles his defences one stolen glance at a time. When a late night at the office finally gives way to passion, it's meant to be forgotten—a mistake neither of them can afford. But some mistakes leave consequences. When rumours link him to a supermodel and he accuses the one woman who never asked for anything of trying to trap him, he shatters her trust beyond repair. Hurt and humiliated, she disappears—leaving behind a letter that reveals a truth he can never unlearn. Now he must face the cost of his arrogance, the weight of his past, and the woman he may have already lost. Because the greatest risk isn't falling in love—it's realising too late that it was real.

The Billionaire's Return — *He left with nothing... and came back with everything—except the one thing that mattered.* Six years ago, Luke Calder walked away from his small-town life—and the only woman he'd ever loved. No goodbye. No explanation. No second glance. Now he's back. A self-made billionaire with power, control... and a past he can't outrun. Because Emma Reed never forgot the boy who broke her. She rebuilt her life without him. Stronger. Colder. Untouchable. And she's not alone. Their son—the child he never knew existed—is living proof of everything he left behind. Now Luke wants a second chance. But Emma remembers the girl he destroyed. She remembers loving him. And she refuses to let him do it again. Because this time...she has everything to lose.

Tropes:

-  Billionaire Alpha Heroes
